

## **Selected Photos of Project Area-Part 4 (60-68)**

01-39: 4TH SEP 2013, FROM ABOVE CITATION BOULEVARD BRIDGE  
TO BELOW OLD CONCRETE BRIDGE

40-43: 2-4TH OCT 2013, AT PARKING LOT

44-68: 22ND DEC 2013, FROM ABOVE PARKING LOT TO INTERSTATE-64/75.

60: extensive low terraces in lower section; trash but no problem with bank erosion.

61: patch of alien *Clematis terniflora* (Japanese virgin's-bower) among walnuts and ashes.

62: behind sewer pumping station with unusually tall sunflower—why mowed so much?

63: another view of transition to uplands; see also 52-54.

64: from junction of Legacy Trail (right) with access road parallel to Interstate (left).

65: sewer line crossing creek just south of Legacy Trail bridge.

66: as above, looking back to sewer pumping station (right) and Embassy Suites (skyline).

67: bridge under Interstates 64 and 75 (combined); junction with small tributary from east.

68: sign along Interstate: “Cane Run Creek”—but it is really a RUN not a CREEK!
